MEET THE TEAM

Lawrence McLean

**CEO/FOUNDER OF AAT
TRIP HOST**

Lawrence McLean developed the concept of AAT in 2012, as a result of the constant let down of friends backing out of travel plans, or simply not sharing his interest in traveling any further than the Caribbean. He started the group, African American Travelers of Philadelphia, followed by another chapter in New York, on meetup.com. Since, he has led thousands from around the country, on the most epic, unforgettable, international tours. AAT's groups have perused six continents, including its, signature, annual NYE in Dubai experience, and taking travelers "Home for the Holidays" to the beautiful motherland, Africa, year after year. According to "Madame Noir" Lawrence has been recognized as one of the three US entrepreneurs who is changing the perception of travel to Africa!

Andrea McLean

**SOCIAL MEDIA ENGAGER
HOST ASSISTANT**

Andrea McLean is known for traveling with style, She has worked in customer service and sales for many years, mastering 60-second pitches since the spunky age of 6! She is focused on customer satisfaction, engagement, and bringing a smile to our travelers faces. Some believe that she may have been a comedian in her past life. Whenever she is around , there is always laughter.

William McLean

**SOCIAL MEDIA ENGAGER
HOST ASSISTANT**

William Mclean is our newest addition to the team. William is currently in college majoring in business acquiring relevant skills that will not only enhance your traveling experience with African American Travelers but ensure that your experience is our top priority. William loves building connections and meeting new people, as our entire team is incredibly eager to present our customers with the opportunity to develop lifelong friendships and memories as that will last forever.

“Great things in business are never done by one person. They’re done by a team of people.”

– Steve Jobs

REYKJAVIK

Reykjavík is a city of bold contrasts: it is both cosmopolitan and small-town; vibrant and sophisticated; young-at-heart and yet full of history. Many monuments, new and old, are also worth a peek, including the newly built oceanfront music and conference centre, Harpa. Luckily, everything in Reykjavík is close by, museums, galleries, theatres, cafés and swimming pools for example. As such, the city is perhaps best explored by foot or bike.

GOLDEN CIRCLE

The Golden Circle is by far Iceland's most famous attraction. A short drive from the capital city, you see the most stunning sights at Thingvellir National Park, Geysir geothermal area, and Gullfoss waterfall

NORTHERN LIGHTS

Towering 2,310 feet above the city of Rio, The extreme dark of the Icelandic winter has a few perks. Between September and April, the people in Iceland are treated to a magnificent natural display: the phenomenon of aurora borealis, or what we commonly call the Northern Lights. The Aurora Borealis takes its name from the Roman goddess of dawn, Aurora, and the Greek word for the north wind, Boreas.

SNOWMOBILE TOUR

Snowmobile tours in Iceland are the ultimate thrill. Driving on top of a glistening glacier, surrounded only by mountains and snow, is certainly something you'll never forget. Take your seat on a fierce and vigorous snowmobile as you are taken up to the clouds on the amazing Langjökull Glacier!

SKY LAGOON

On the outskirts of Reykjavik, Iceland's Sky Lagoon is a luxurious, man-made thermal bath that juts out over the wild North Atlantic. Soaking in the warm water you can watch the waves crash beneath you and gaze out to the steely horizon, all while staying cosy warm.

WHALE WATCHING

Reykjavik is not only the northernmost capital of the world, it is also one of the best place to go for whale watching. Humpback whales, minke whales or white-beaked dolphins. But also harbour porpoises. Although Reykjavik is a town, there is still much nature to explore. Be it on land or at sea.

SOUTH COAST TOUR

The South Coast offers an array of natural wonders that draw thousands of visitors each day. The whole area is geologically very young, formed during the last Ice Age by the lava flows from numerous volcanoes in the area. The lowlands are surrounded by volcanically active mountains, notably Eyjafjallajökull and Hekla.

JOKULSARLON GLACIER

Set in the famed Vatnajökull National Park, the Jökulsárlón glacier lagoon is one of the most glorious sights on Iceland's south coast. On a visit to this enchanting landscape, you'll witness serene floating icebergs, black-sand beaches, Iceland's unique wildlife, and so much more.
